

PPL1-P Resistance Thermometer with Lead

Our PPL1 sensor is designed for a wide range of general purpose industrial applications that require a flying lead sensor. Our flexibility allows us to manufacture a sensor to your requirements including high accuracy sensors and simplex or duplex sensing elements. Various common options are shown on this data sheet but this is not an exhaustive list, please contact us with your requirements. Full details of the lead types and accessories are available in the appropriate data sheet. UKAS or traceable calibration is available upon request.
